

Please do not change the ruling concerning the "Telephone Privacy Act". It's been wonderful not being continually bothered with the telemarketers. I'm on the phone 75% of the time on my job and don't want to be bothered when I get home every night. The telemarketers call all hours of the day and night. I don't think anyone should be bothered on Sunday's. Please leave the ruling as it stands, it's been wonderful.
